

Hana Slim 1 Pedal Bin 10 liter, EKO - black

The Hana Slim 1 Step Bin with a capacity of 10 liters combines elegance with practical ease of use and is an excellent choice for both home and office. This trash can features a soft-close lid that ensures a gentle and quiet closure. A particularly handy feature is the movable inner frame, which can be lifted up and remain in this position. This makes it easy to keep the trash can open longer when necessary, ideal for during cooking or cleaning.

Another smart element is the plastic bag fixer, which ensures that the trash bag stays firmly in place and does not fall into the bin. This makes replacing the bag much easier and keeps the inside of the bin neat. The Hana Slim 1 Step Bin is also equipped with a durable stainless steel foot pedal, built to last and withstand intensive use.

Furthermore, the design of this trash can is stackable, which means that multiple bins can be efficiently stored and stacked. This is particularly handy for use in spaces where efficient use of space is important, such as in small kitchens or at multiple workstations in an office environment.
